

# SAKENONG ALPS

The **Sakenong Alps** were built to be the premier alpine resort destination for year-round skiing. The mountain has over a 350m vertical drop and over 200 Hectares of skiable terrain.

The mountain is supported by three authentic villages:

- **Frankenmuth** for a Bavarian themed resort experience with its weekly **Oktoberfest** celebration and world famous **Schuhplattler** dance competition.
- **Chamonix** to relax in the shadow of Mont Blanc and their weekly **Festivale des Vins**, giving every budding wine judge an opportunity to show off their discerning palette in the competitive but always fun **Vinalies de Sakenong Judging Competition** (compete to be the best judges).
- **Dolomiti** for an authentic Italian Alps experience, and its extremely popular **La Sagra** food celebration and the **Lasagne Eating Contest**. Fun for all ages.

Each village is hosts a massive ski lodge, providing a unique view of the mountain and the splendourous Summit where all skiers from around the world and the resort can relax with an unparalleled view of the surrounding countryside.

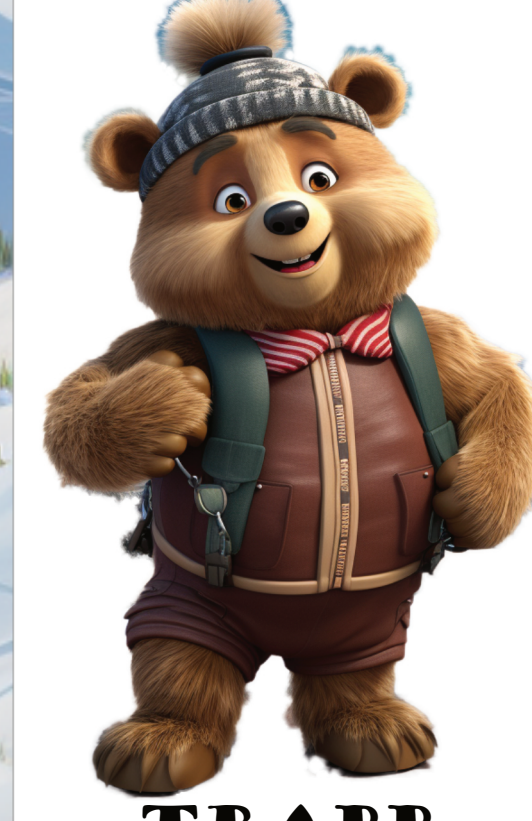

Shops, restaurants, and entertainment venues fit neatly into each village, where suites and apartments for resort guests are integrated into the village, just like in the Old World.

One truly unique feature of the **Sakenong Alps** are the facilities built into the mountain. Pools, lounges, sun decks, as well as sports facilities, bars, and more are all built into the **Alpen Haus** resort that exists inside the mountain.

Our most popular feature is **Eisriesen Undermountain Water Park** that occupies 6 stories and over 300,000 sq meters of space inside the mountain, open year round. Age-appropriate day care is provided throughout the resort for kids activities and consistently one of the most popular aspects of the resort.

Pets too are not left out. Numerous pet parks exist on the property and pets can select from a wide range of activities as well as care options, including full grooming and convalescent facilities.

- Got a pet surgery scheduled? Try one of our **Healthy Pets** packages that provides a savings bundle if you have your pet's surgery and recovery with us.

We also politely remind all new guests that this is a Weapons Free safe space, and that all pets are to be on a lead unless in one of the designated pet areas. Exotic pets are of course welcome, but pets larger than 50kg require you to lead your pet to one of our pet friendly areas where your pet will have a wonderful time.

We hope you will find your stay with us unique and you will want to return again.

Be sure to engage with one of our concierge's to ensure you are getting the most out of your time here.
